

AMPLIFI™
FASTER, WHOLE-HOME WI-FI™

alpha®

Download the App

To set up your AmpliFi Wi-Fi Router using the AmpliFi app, follow these steps:

1. Download and install the AmpliFi app from the App Store or Google Play Store. Alternatively, scan our QR Code.

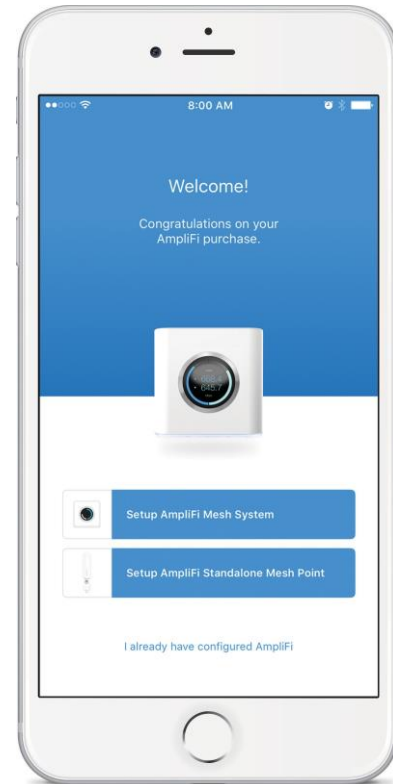

2. Launch the AmpliFi app.

 **Note:** For iOS users, ensure that Bluetooth is enabled on your phone or mobile device. For Android™ users, ensure that Wi-Fi is enabled on your phone or mobile device.

Router Installation

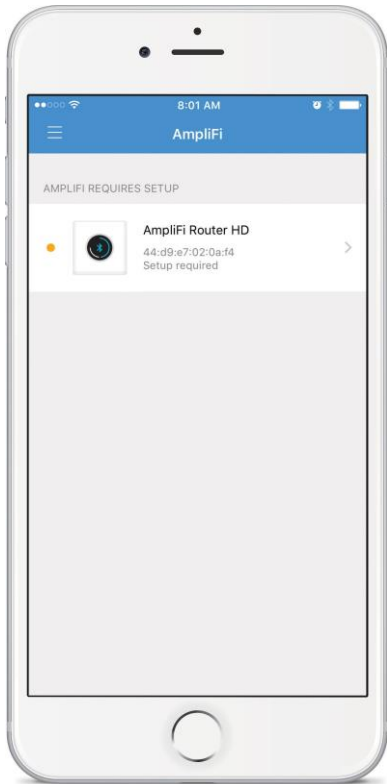

1. Tap **Set Up AmpliFi Mesh System**.

2. Tap **Skip** to bypass the hardware setup instructions

3. Tap the **AmpliFi Router**.

5. The Router will emit a sound, indicating that the configuration is complete.

6. From your mobile device, go into your settings and join the wireless network you created using the password you created in step 4. Once you have connected, go back to the AmpliFi App.

4. Name your wireless network and create a wireless password. Generally, we use the following:
Wireless Network Name: Alpha[Unit Number]
Password: [Firstname]123

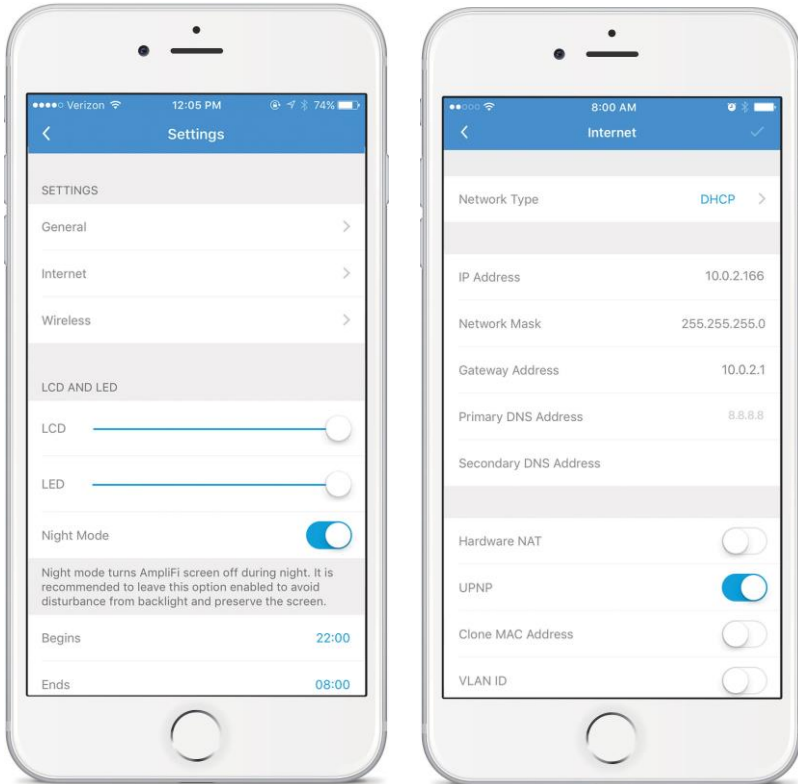

Then tap **Continue**.

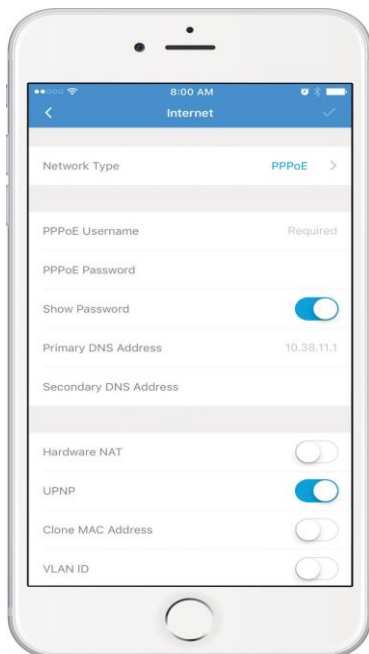

Router Settings

Settings

7. Once you are in the settings, click 'Internet' and set the Network Type as PPPoE. Click the ✓ icon in the top right-hand corner.

8. Enter the Alpha username and Password in the fields below:
PPPoE Username
PPPoE Password

Restarting your router

If you need to restart your router, please do so by unplugging the power source. **Do NOT** press the reset button on the bottom of your router as this will completely reset the router. If you press this button, you will be charged a fee of \$70 if a technician has to come and reconfigure the router.
